

SAVANNA

SAVANNA is a fine and delicate napa leather with a natural elegant tumbled grain pattern, which is particularly beautiful when the leather is gently pulled up. SAVANNA fills the niche between pure aniline and semi-aniline leathers. Despite only being gently finished, SAVANNA is pleasingly low-maintenance - making it particularly suitable for sophisticated commercial-use furniture with an aesthetic appeal or for high-quality furniture in a beautiful home.

Application: furniture, leather goods

Colours: 15 colours on stock

Thickness: 1.0/1.2 mm

Custom colours: 250 m² per colour

Delivery: from our warehouse in Bodenwerder, Germany

Minimum order quantity: 1/2 hide

Area: approx. 5.0/5.5 m² per whole hide

Raw material: Central European bull hides

Tanning: environmentally friendly mineral tanning

Care products: Leather Sealant, Mild Leather Cleaner, Leather Protector

TECHNICAL CHARACTERISTICS

Remarks/Test method/Requirements	Nominal value
Colour fastness to rubbing DIN EN ISO 11640 (grey scale level 1-5)	
100 tours dry	≥ 3
40 tours wet	≥ 3
30 tours perspiration pH 8	≥ 3
Colour fastness to light DIN EN ISO 105-B02 (WBS-level)	≥ 3
Tear strength (N/mm) DIN EN ISO 3377-1	≥ 20N
Flexing endurance dry DIN EN ISO 5402 (20.000 bucklings)	i.O.
Fire protection standard DIN EN 1021 Part 1+2	i.O.

Quality test certificate in accordance to DGM guidelines 2016

Please note that this test certificate does not relieve the customer of his obligation to inspect incoming goods and may claim of third parties to whom it is passed. It is not a property assurance in legal sense.

CLEANING AND CARE INSTRUCTION

Savanna is an easy to care, pigmented leather.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a **feather duster** or a dry **dust cloth**.

Visible dirt and stains can be cleaned with **Leather Cleaner Mild**. The **brush** can additionally be used for dirty graining.

Fresh stains can be removed immediately with a soft cloth or paper towel. Don't rub too hard!

Clean remaining dirt and stains with Mild Leather Cleaner.

For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For maintenance, we recommend **Leather Protector**. It's a protective cream with the necessary moisturizing oils and UV protection. It protects the leather from fading and keeps it soft.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.

In high-traffic areas such as hotels, fast food restaurants, meeting rooms, aircraft or ships, the surface is more stressed and mechanical damages, colouration of jeans and soiling on lighter leather occur more often. In such cases we recommend **Leather Shield** (Leder Versiegelung). Leather Shield is a strong protection against wear, stains and jeans colouration. Leather Shield should be applied after each cleaning or at least every two months to prolong the durability of the leather.

When both care products are used, the treatment with **Leather Shield** is always to be applied before the treatment with **Leather Protector**. Let dry between the treatments.

Colour damages because of wear can be adjusted with **Leather Fresh**.
