CLEANING AND CARE INSTRUCTION

SILVER is a high quality soft leather with a fine wax finish. Due to the very thin protective layer, this leather is pleasantly warm, but not too sensitive.

For everyday cleaning, it is sufficient to occasionally dust off the leather with a **feather duster** or a dry **dust cloth**.
Stains and visible dirt can be cleaned with a damp terry cloth and **Leather Cleaner Mild**. Not too wet to avoid water marks. Always practice a cleaning test in a hidden area! Be especially careful with lighter leather.
For difficult stains, it is always better to contact a specialist first. Damage can easily occur due to improper cleaning attempts.

For maintenance, we recommend **Leather Protector**. It's a protective cream with the necessary moisturizing oils and UV protection. It protects the leather from fading and keeps it soft.
Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
